

Review for video “Until the evening comes (day 1)”

This is a review of one of Jeny’s older videos, published in 2015. It is a particular favourite of mine. Shortly after becoming a member of Jeny’s site and after watching the latest videos, I started going through her back catalogue of videos one by one, starting at the oldest. This is the first video I came across that showed me that in addition to Jeny being a beautifully erotic tease and exhibitionist, she could also be very naughty from time to time! To see what I mean, read on.

This video is just over 25 minutes. It starts very promisingly because it shows Jeny from the rear (and what a gorgeous rear it is). She is naked, apart from nude coloured heels, ironing in front of a large window. Oh how that fabulous butt sways as the iron goes backwards and forwards. When you look closely you can see she is ironing the hem of a skirt.

The next scene shows Jeny walking outside. She is now wearing the skirt with a short black leather jacket. Her fabulous legs are bare and she is still wearing the nude coloured heels. The camera zooms in on the hem of the skirt and we see it is quite flimsy. The camera then switches to the front watching Jeny walking. We can now see Jeny is also wearing a white cardigan under the jacket. As she walks by, she raises the skirt hem to give the first flash of her pussy. As often is the case, there are no panties to obscure the view.

We then see Jeny standing by some railings on a waterfront. There are two pleasure boats on the river below cruising by. It is windy. Jeny bends over the railing, inviting the wind to lift her skirt. The wind is in an obliging mood and duly lifts it. There is the fabulous butt again.

Jeny turns around. Jeny and the wind play a game together, lifting and swaying her skirt and flashing her pussy. In the background the pleasure boat passes by serenely. Jeny is in a playful mood and cannot resist lifting her skirt and swaying her hips. Her prominent inner pussy lips make their first appearance, keen to join in the fun!

Jeny then goes for a walk alongside a busy road. We are watching her walk towards us. It is such a sexy walk. Jeny is oblivious to the passing traffic and cannot resist flashing her pussy.

The camera switches to a rear view and we get a quite close, up-skirt view of her butt. It then follows her as she walks along a road. That fabulous butt is wobbling as she walks. She turns around. She bites her finger and has a really naughty grin on her face. What is she planning?

We are then back by the river. Jeny has removed her jacket. She has undone her cardigan. Her breasts are now also being flashed. She grabs the railings to stretch back, then turns around. She stretches both arms behind her head, so her breasts are thrust forward. She then raises a leg to put

one foot on the railings and lifts her skirt again. Another boat passes the opposite way in the background. She curtsies so cutely.

The camera pans around to show us the river is by a road. Cars and a cyclist pass close by as Jeny continues flashing her pussy, butt and breasts. Jeny is next shown sat down on a brown wooden bench. She has lifted her left leg onto the bench. All the flashing has made Jeny horny: she is now rubbing her pussy with one hand. She flutters her eyelashes at the camera and she looks around to ensure it is safe for her to carry on masturbating.

She then stands up and turns around and raises her skirt. There is that fabulous butt again. She opens her feet and pushes her butt back towards the camera. Her pussy hasn't been satisfied yet so turning around we see her masturbating once again, stood up, legs apart on a public footpath!

The scene changes again. Jeny is in the back seat of a travelling car.

The camera is between her legs, which are spread wide. She is seriously masturbating now! Her eyes are closed as her right hand continues to play with her pussy lips. She looks out of the window to catch the view. She doesn't stop masturbating!

The car has stopped. Jeny is still in the back seat. The seat belt is off and her cardigan is open wide – like her legs. She toys with her breasts and nipples as she gazes out of the window. What is she looking at?

Jeny is really caressing her body now as she gazes, lustfully at the camera. She bites her lip as one hand caresses her pussy and the other caresses her breast. The camera then shows us the view out of Jeny's open window. There are young men playing football and it seems they are only some 20 metres away. What is Jeny thinking of as she masturbates?

The camera zooms onto Jeny's face just as she licks her fingers before pressing those fingers to her pussy. Her left hand holds one pussy lip as we see the fingers of her right hand circling her clitoris. She is still gazing out of the window.

Jeny is now breathing heavily. Her eyes close as her head is tilted back (I have since seen that look in many other videos). It is a sure sign she is reaching a climax. Some seconds later, her head jerks forward and back.

She has had a powerful orgasm. Unfortunately there is no sound at this point on the video, so we cannot hear her climax but the sight of her cumming is more than enough. She smiles brightly and closes her legs.

Surprisingly the next shot is outside the car looking through the front windscreen. We can see Jeny's naked body in the middle of the back seat. That climax did not satisfy her. She is masturbating again. The camera shows people walking and cycling by to the rear of the car. The people are oblivious to the sexy scene taking place in the car.

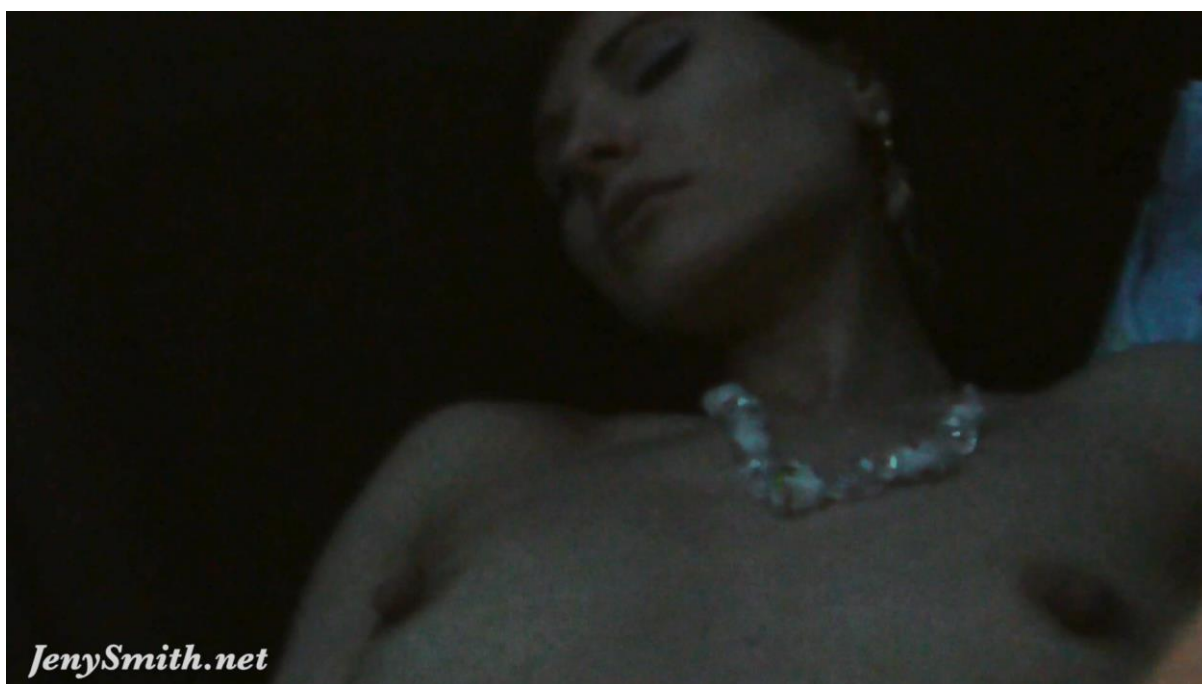

The view switches to the side of the car looking through the open rear door on the passenger's side.

There is the sound of traffic. We get the glorious sight of Jeny naked (except for heels) legs spread plunging her fingers into her pussy. The camera moves between her legs. We see her fingers plunging in and out of her pussy. We hear the squelching noises her wet pussy is making. As she plunges the fingers on her right hand into her pussy, the fingers of her left hand fiddle with her clitoris.

Now what is happening? Jeny turns to look as the cameraman (Alex) climbs into the back seat. We get a close up of her swollen nipples and her fingers playing with her pussy. But the scene then goes dark. What is happening now? The camera and my eyes focus. What are we looking at? It's Jeny's pussy just inches away!

The camera show Jeny's face in the darkness, turned away, eyes closed.

The microphone picks up licking and slurping noises. In the semi darkness there is the unmistakable sound of Jeny groaning as she cums! Alex has gone down on Jeny's pussy! That was so unexpected and horny. The camera then pans up. There is light from the rear side window of the car. You can just make out Jeny's face. She has a huge grin on her face. The camera pans back. It is still between Jeny's legs looking up. In the semi light you can make out Jeny's thighs and then the swollen lips of her pussy. Wow what have I just seen?

We then switch to outside again. Jeny is naked (again except for her heels). Is she going for a walk in the semi-darkness. No, she squats down and with a huge grin she starts peeing. You can see the stream pooling at her feet. She pees for at least 10 seconds (well I just had to time it).

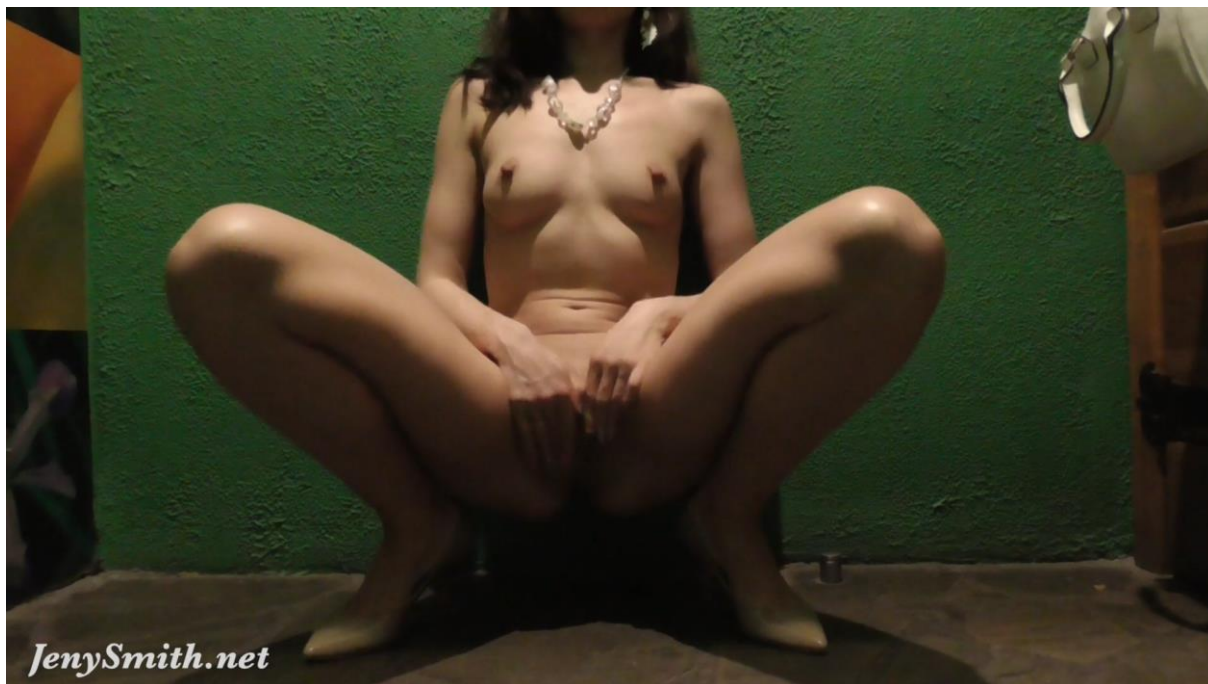

She then takes a walk. We see her from behind, slapping her butt cheeks, twerking them and bending over so we have a better look. She then turns around and with her arms behind her head starts "bumping and grinding" in the open. She enjoys the freedom of being naked outside.

We are then inside a bar or café. Alex is sat opposite Jeny. She has her skirt pulled high, smiling at the camera. She opens her legs. Alex switches under the table for a between the legs shot but it is too dark for a clear close up of Jeny's pussy. Jeny opens her cardigan and flashes her breasts. She smiles towards someone off camera so presumably some lucky person saw her flashing. There are some more shots of Jeny from the side, skirt pulled up so her landing strip is visible.

Jeny has then moved to the toilets. But unlike most people who go to the toilet, Jeny decides to undress to get naked. First, her cardigan comes off, then her skirt. Turning her butt to the camera she bends over to give us a better look. We then see her naked full frontal. But that's not enough for Jeny. She squats down. She has set her selfie camera on the floop to look up between her legs, but we cannot see her face.

She spreads her legs as she uses both hands to spread her pussy.

The noise from a hand dryer blasts out from an adjoining cubicle. She moves to a better lit corner and she squats down again. She then picks the camera up to pan up and down her naked body. Her nipples are so prominent in this light. Jeny then places the camera on the floor. She stands astride it and squats down. What are we going to see now? You can see her fingers playing with her pussy but it is too dark to actually see it clearly.

The parting shots are of Jeny picking the camera up and panning around, showing her reflection in a mirror and her perky nipples before panning down to show us her fingering her pussy again. The final shot is one zooming into Jeny's lips as she blows a kiss goodbye to the camera.

So much was squeezed into this video. There is a variety of exciting different scenes in it. If you haven't seen it yet, you really should look for it using the link below. Also look out for the other video called "Until the evening comes (prt 2)" where Jeny is naughty again but in a different way using the following link: <https://jenysmith.net/scene/6505186/until-the-evening-comes-prt2>
