

Review for video “SNF...up skirts?”

Running time: 19 mins

It's a wonderful sunny day in Moscow and lots of Moscovites have taken to the parks alongside the river Moskva.

Amongst the visitors this day is our Jeny and at first glance she appears to be wearing nothing but a t-shirt (well it wouldn't surprise anyone who knows anything about Jeny!). The wording on her t-shirt reads “Sexy and funny” and is a good indication of Jeny's mood.

From the low down angle of the camera we see Jeny has a very brief pair of shorts which are losing the battle to keep her butt cheeks from eating them! Jeny is searching for the spot on the grass which Alex has saved for her to sunbathe on.

We next see Jeny laying on her towel with t-shirt and shorts removed and she wears the smallest of home made bikinis. I don't use the word smallest lightly, the bottoms consisting of a single thread between her beautiful buttocks and the tiniest of triangles just covering Jeny's perfect pussy lips and just covering her landing strip.

Add to that an adjustable top which barely covers her nipples, add to that the material is see through and you have the sexiest of swimwear on the planet!

Jeny proudly shows off her handiwork and not content with showing the Moscovites lucky enough to be strolling past but she is filming a selfie to show us too! And she is determined to show us how gorgeous her body is!

Next up is a walk to some seating by the edge of the water. Jeny wears her bikini over which she has her t-shirt but not for long!! Finding a sun drenched spot, off comes her t-shirt and up comes her selfie.

Jeny has the most beautiful body and she knows it but not in a vain way (I think she has the mantra of 'if you've got it, flaunt it!'). She relaxes in the seat and with shoes off, her feet up on a bench and what's Jeny up to?

Even with so many people about her, Jeny needs to expose her perfect pussy. So she slides her hand down and pulls the bikini bottoms to one side and all is revealed!

Jeny hasn't finished her flashing by a long way. She puts her t-shirt back on and with just her bikini bottoms on, it really does now look as if she is bottomless. Which we are about to find out is part of the plan!

She is now taking the footpath that runs parallel to the river path and here is where she reveals her secret, yes in the diversion from one path to the next, Jeny has been able to remove the bottom half of her bikini!

From now on any movement by Jeny reveals either pussy or butt cheeks especially when Alex shoots her from below.

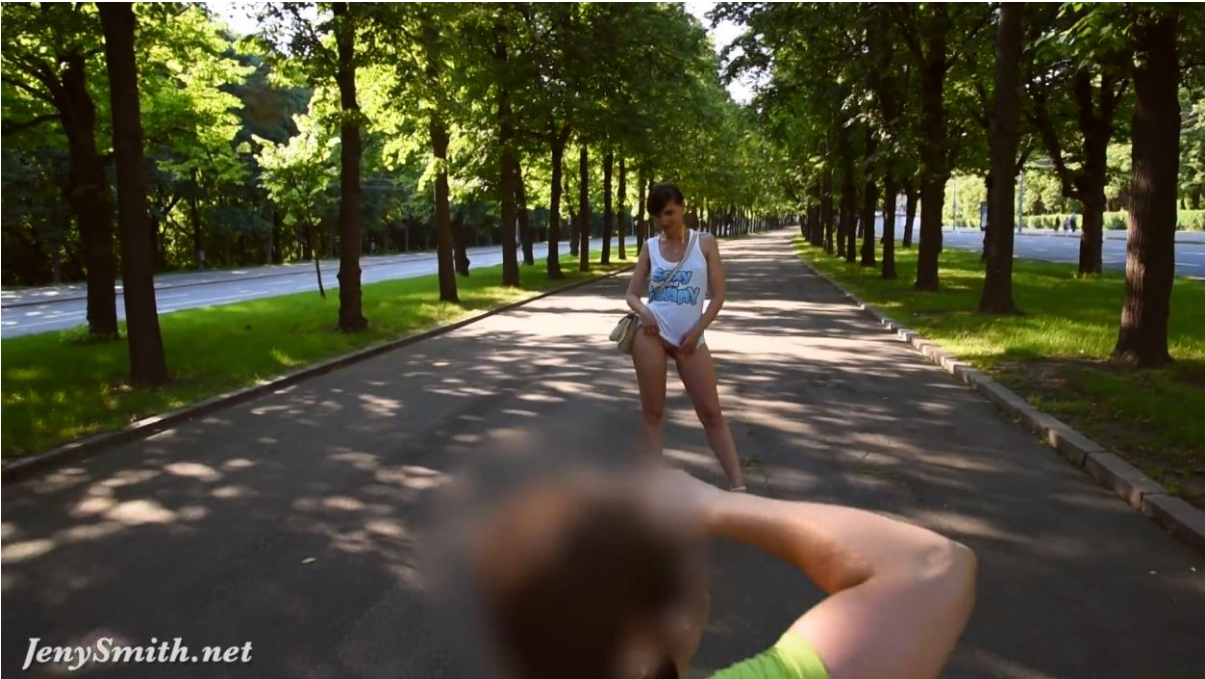

Jeny is now walking along the path with the only covering of her handbag to hide her treasure, as the pedestrians become less Jeny is seen pulling her t-shirt up to reveal her fabulous pussy.

Now walking on the path which separates the traffic travelling in each direction, Jeny is in her element which is to be able to risk being caught.

She and Alex are joined by a photographer who makes the most of his opportunity as he finds our Queen and snaps away, Jeny continues to raise the hem of her t-shirt revealing her perfect pussy.

All this is happening whilst traffic is passing close by (I'm constantly amazed that there aren't more car crashes near by!!!!). Anyway we get to see all of this in the safety of our own homes!

Poka poka, until the next time.
