

Review for photoshoot "The Roof"

Tags: Pantyhose, Roof; Published: August 29th, 2017

Jeny was hired as a model by the artistic director who had noticed her and followed her adventures on the Internet. The photographer confirmed her talents, her kindness, her beauty and her professionalism. The shoot takes place on the roof of Moscow skyscraper, at the end of the day, when the light is warm and grazing. To start, Jeny is wearing a cream colored dress. She sets and follows the directives of the entire team. Alex is also present and he takes the opportunity to make a video. Between two takes, the assistants rush to take selfies with Jeny. Her dress now raised to the waist pleases everyone. Change of outfit, change of atmosphere. Jeny took off her tights and swapped her maxi dress for a super short t-shirt dress. When the team saw her pussy, the surprise left no one indifferent. The photos follow one another, the laughter too and the atmosphere is exceptional, just like the sunlight hidden in the distance in the city. The poses become more and more suggestive because Jeny took the initiative. She will soon have nothing left to cover herself with and the last bursts of light lick this magnificent body to the great pleasure of the entire team and of Jeny of course. A great souvenir for everyone.
