Running time: **7 minutes 47 seconds**

Jeny and Alex rented a small apartment in the city to spend a few days on vacation.

It's summer, it's hot and Jeny prepares lunch dressed only in a black strappy top. So she has her butt exposed. Alex has just noticed that on the other side of the small street, in the apartment opposite, workers are working.

He tells Jeny about it and immediately the game can begin. First, Alex installs a light to make the kitchen even more visible, then Jeny removes the only piece of clothing she was wearing.

Now she's completely naked.

She does her best to be spotted and her nipples are proof of that.

She even opened the window wide while continuing to prepare the meal as if everything was normal.

And then she leans out of the window. But what do the workers think?...
