

Review for photoshoot "Your Host"

Tags: Tainted Love, Host; Published: February 15th, 2018

A serie of 48 photos

Jeny attends the Tainted Love party. She is dressed in a leather jacket under which she only wears her MyMokondo made up of a few thin belts. She intends to have fun. Microphone in hand, she interviews people here and there, she dances on stage whenever she can and she lets herself be photographed while striking a pose. Here nudity is allowed but any kind of touching or explicit action is forbidden. But you know Jeny. Watching the final shot of the video, you'll see Jeny discreetly enjoying herself on stage. But I won't say more.
