

## Review for photoshoot “New trends of fashion”

Tags: No; Published: September 05<sup>th</sup>, 2018

I don't know if Jeny wants to start a new fashion trend but what I do know is that she likes to have fun and provoke incredibly exciting situations. This time she is walking in a park and wearing a white shirt and leather jacket, pants and nice boots. Jeny in pants, it's rare. But look closely, her pants are holed in the crotch and we can see easily her pussy. Sitting on a bench, she will open her shirt and release her breasts with already erect nipples. In the video you will discover a man sitting next to her because he has seen everything, he has understood everything. Jeny would later tell us that she likes it when someone looks at her. She added that he had noticed that she was moving strangely, that he knew she was exposing herself to him, so he dared to approach her.
