

## Review for “Short trip”

Tags: **No**; Published: **June 30<sup>th</sup>, 2018**

Running time: **23 minutes 47 seconds**

Jeny went on a trip just for two days. To visit her family or for business? We find her when she gets off the plane, in front of the airport.

A taxi takes her to her hotel. Once in her room, while she was changing, a worker arrived behind her but immediately left without saying anything. She hadn't closed her door and she was naked. The guy had the chance to see Jeny's beautiful butt.

Jeny is now dressed in a white lace ensemble, shorts and a top with straps around her neck. It's very transparent. She holds her selfie stick and goes out into the hotel corridor.

When she arrives at the end of the corridor, she undresses entirely.

And then she goes to sit quietly on the sofa in the small living room. Several times she had to hide because people passed close by but that's what is exciting for Jeny.

But the game becomes too risky, you have to think about going back to the room.

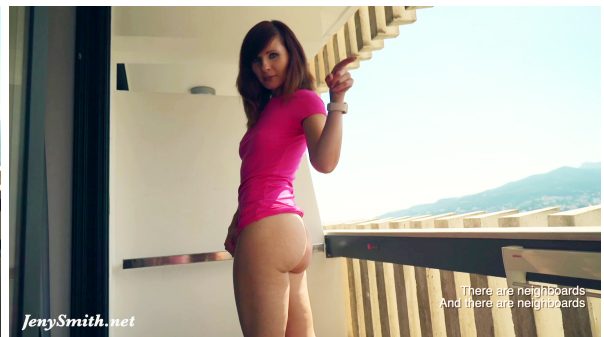

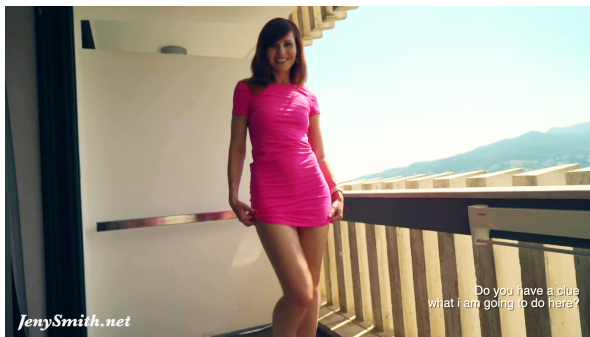

The next day, she is going to the beach.

And Jeny decides to sunbathe.

Back in her hotel room, we find her on her balcony. She is wearing a pink dress and she points out to us that there are neighbors on either side. Jeny wants to play!

Jeny thinks it's time to take a shower.

We will now let her mind her own business, and it's none of our business.

Poka Poka!
