I featured «SecondSkin» advertisement shoot!

Jeny was looking for a "Mad Max" costume for one of her videos or for a Cosplay party.

With Alex she went to meet Simon and Maria in their shop. They are creators of handmade leather clothing for bondage and/or BDSM. After trying on a few outfits that Jeny wanted to try on naked, Simon asked her if she would be willing to model for their commercial.

You know Jeny. She said yes without hesitation.

Simon booked a half day in the largest photo studio in Moscow (Fotostudia Moscow) and chose the big set with a white cyclo.

A set is an empty room with a cyclo. (A module is a room with a decor, an atmosphere)

A cyclo is a structure that starts from the ground and covers one, two or even three walls and rounds all the right angles to eliminate shadows in the corners.

While Simon sets up the lights with the assistants, Alex prepares his camera and Jeny puts on makeup.

Everything is ready. A strange armchair is placed in the center of the cyclo. Jeny discovers it, touches it and settles in. Simon and Alex tie Jeny's arms and ankles in this strange seat that tilts back and forth and allows us to enjoy all of Jeny's intimate parts.

We enjoy everything. Her breasts are magnificent and her nipples are swollen with pleasure. Her pussy with its wonderful landing strip is revealed, her plump buttocks are going to be whipped and her asshole is offered to the camera.

Simon is satisfied with the result for the communication he will do on his website. Jeny had a wonderful afternoon, but so did Alex and Simon's assistants.

But other surprises can be discovered in the video that Alex made.
