

Collage-review for photoset “My First Halloween Costume”

Tags: [halloween](#); Published: [November 28th, 2019](#)

Jeny's first Halloween costume was first presented in autumn 2019, and there is an outstanding photoset consisting of 185 (!) photos, indoors, in a “bare” but historical surrounding. Jeny is a blond witch, first fully dressed but undressing on her long way through these 185 quite daring poses, and there are so many photos with daring poses, that we have to leave most of them to the subscribers of Jeny's site. But only to mention two motifs in this outstanding set:

First, the butt views:

There are so many photos, Jeny bending over or standing with her back to us, and a series of photos where you see her butt, and both of her hands appear on her back, pulling the stockings or grabbing her butt, a series of art, emphasizing Jeny's gorgeous body shape, butt and legs!

And as a second fantastic motif, the “sitting and squatting” series with additional keyhole views to her pussy, the pussy views:

Here, Alex as a photographer often changed his focus, beginning with Jeny’s face leaving the viewer with the mystery what can be seen through the keyholes, and then focussing on Jeny’s secrets appearing in these keyholes ... A must see! And there are so many other videos and photosets where Jeny is wearing this costume, you will find these in the corresponding treasure description in the “treasures” menu.
