

Review for video “Face to face session prt3”

Tags: None; Published: 18 March 2020

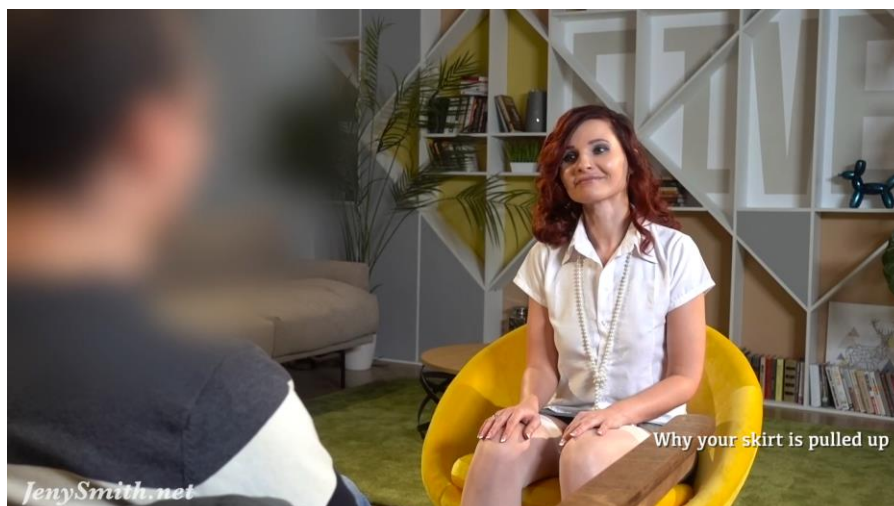

Running time: 12 minutes 24 seconds

Once again this starts with Jeny wearing the same outfit as before, but this time she is joined in the room by Viki (some of you will recognise her as the girl who joined Jeny on a flashing apprenticeship in another great video).

But this episode despite starting off with Jeny talking to the victim about psychology and how she isn't conventional in her approach, is different from the others in the series. It begins with Jeny explaining what the test is about, as always it's about stress in situations where you are put in and how you deal with such problems.

Whilst Jeny is distracting the victim...

...Viki has walked out from behind the desk. She wears a white blouse and black pantyhose and that's all.

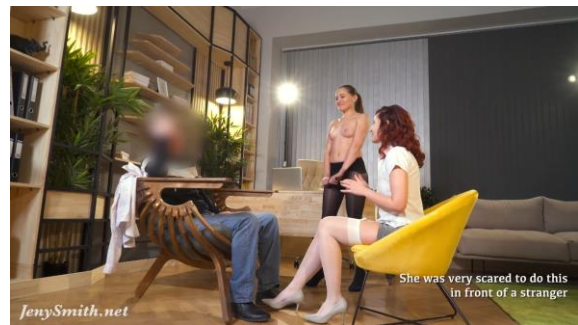

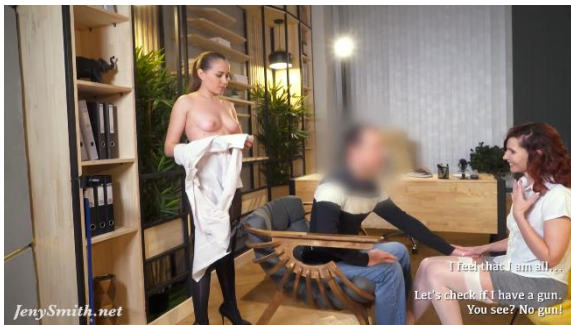

Viki is introduced to our victim as someone who wants to be a bad girl but doesn't know how, as Jeny continues to distract Victor (and I would be distracted if I was there too)!

If you want to know what happens next, please feel free to continue reading, however if you prefer to be surprised then look away now.

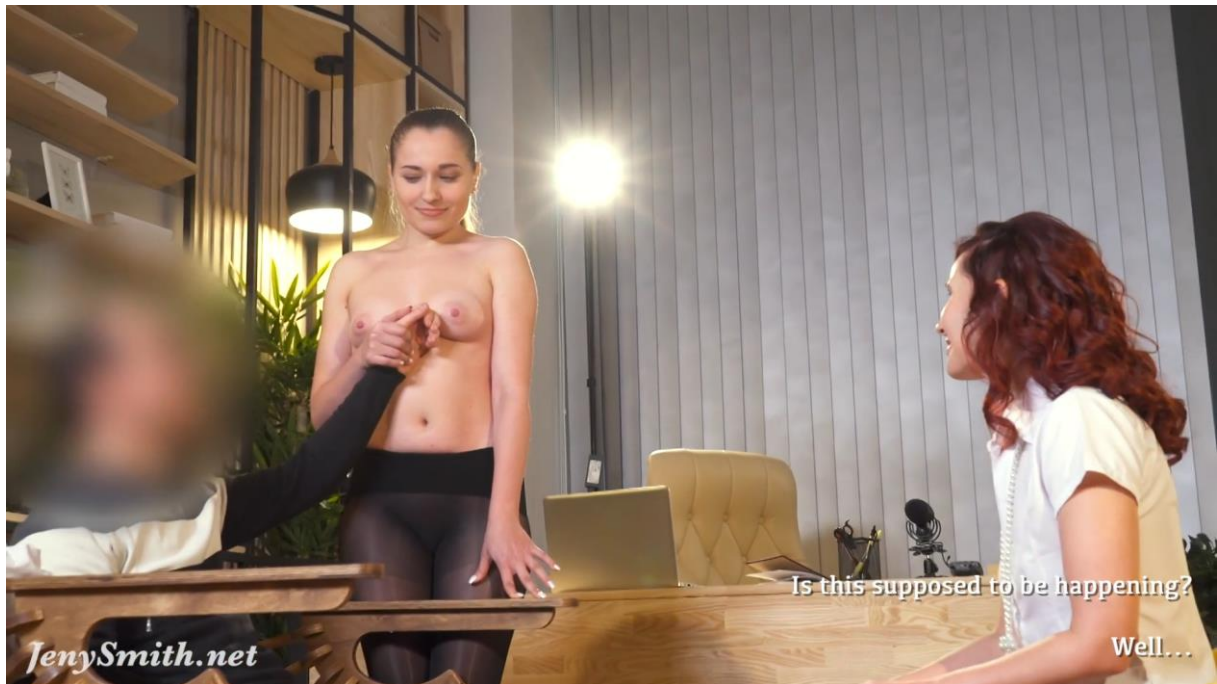

Viki moves behind Victor and takes her blouse off leaving her in black seamless tights. She looks unsure but she moves to be in his line of sight.

He is almost speechless as he is confronted by a bare breasted Viki and the bare pussy of Jeny.

The temperature rises again as Viki takes his hand and guides it over her breasts and then she begins to lead him towards her crotch.

At this point, Jeny draws a close to the session as she explains later that she was worried that things were going to quickly get out of control as Jeny and Viki had agreed to a script which Viki wasn't sticking to.

I don't think that it should spoil your viewing just because the video ended so abruptly. It's great to see Jeny thinking on her feet (and what lovely feet she has!).
