

Review for video “Red Vinyl Bodysuit Explicit Photoset”

Tags: [vinyl](#), [photoset](#), [behind the scenes](#), [red](#), [bodysuit](#); Published: 16 April 2020

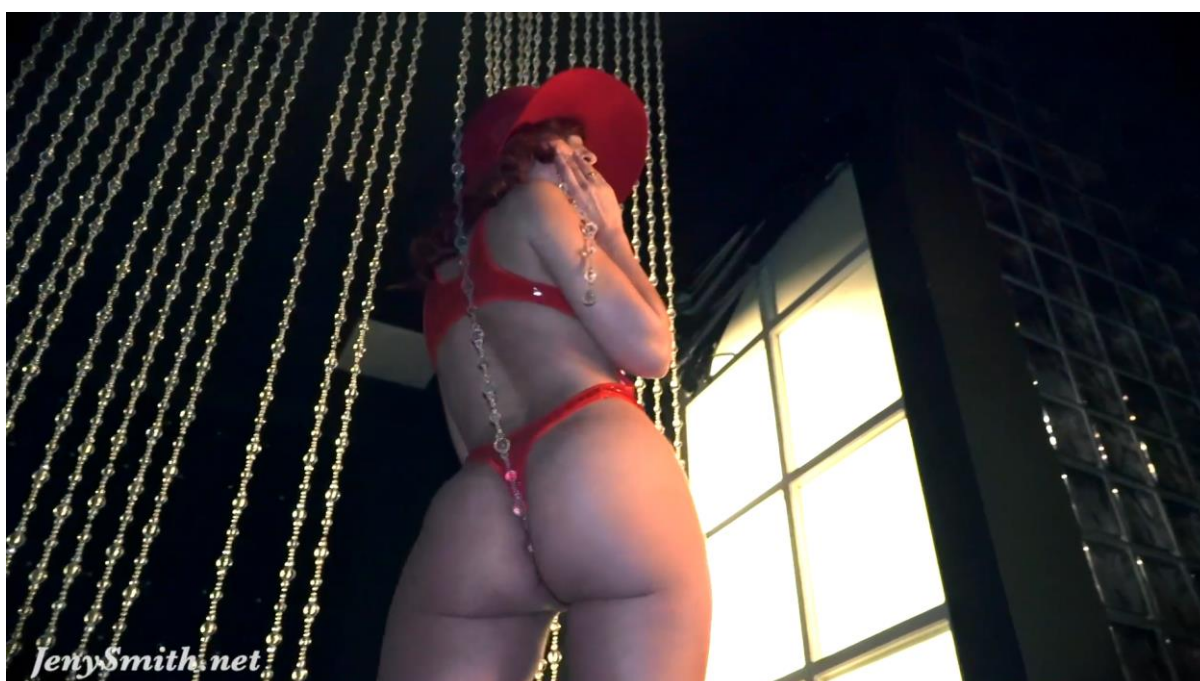

You can tell from the use of the word “Explicit” and Jeny using a bright red, shiny vinyl bodysuit, that this is going to be one hot video. It is 15.37 minutes of hotness.

A professional photographer had been booked for a photo session. Alex was there to video it as well. There were three other males present. It’s not clear what they were doing there unless Jeny booked them to be her voyeurs in attendance for the day. Lucky people. We know she performs better in front of a live audience!

Jeny wears a red fedora hat which covers her auburn hair which is in loose curls. She starts posing very professionally but fairly normally in front of a tiled wall. Her red high heeled boots help accentuate her fantastic legs and butt. Then Alex picks up how the crotch of the body suit has slipped between the lips of her pussy.

The poses then switch to Jeny beside a crystal bead string curtain. We see Jeny from both sides. She pretends to be caught in the strands. At the moment she is still “fully” dressed, that is, her intimate parts are just about covered. She then poses with a string of those beads suggestively between her legs and butt crack.

Jeny then decides to raise the temperature by moving to a strategically placed bed. She climbs onto it. She lays back, raises her legs, then spreads them. We can see the small red strip of red vinyl struggling to fully cover her pussy. She then turns onto all fours and we see a similar struggle ensue for her butt-hole.

She decides things are too tame. After 8 minutes she exposes the nipple on her right breast and plays with it with her left hand; both breasts with perky nipples are then shown; closely followed by her pulling the vinyl strip to one side to show off her pretty pussy lips.

She then moves to sit on a table, breasts exposed and legs spread wide. She fingers her exposed pussy lips and fondles her breasts. So erotic. The hat comes off. She is clearly masturbating now. We see the photographer laying on the floor pointing upwards. No guesses about what he is taking pictures of.

Jeny wasn't comfortable. She moves to a plush deep sided white leather armchair and lays fully back. Feet on the floor, legs open, fingering herself. The professional model in her tries to keep looking at the photographer. But we can see from her eyes closing and her mouth opening that she is starting to think of nothing other than achieving her climax.

She raises her left leg onto the arm of the chair. We get explicit close ups of the middle finger of her right hand firmly rubbing her clitoris. The photographer's camera lens is only about 6 feet away at this point.

We see Jeny orgasm in close up detail and her butterfly is fully open and on display. She holds her lips open so you see just how wet and turned on she was by the whole experience. She has a wide mischevious grin on her face.

The video finishes with Jeny posing standing up and then also sitting back on the table, naked except for her heeled boots. There are plenty of hot poses but a slight chance to calm down after what happened just minutes before but Jeny still just has to end by stroking her pussy.

In the introduction to the video Jeny commented: “ I know that wasn't professional of me but I knew all 5 men in the studio wanted to see me doing that, so I let it go...Nobody stopped me and I finished”.

Five men??? What could they have been doing?

This video is linked to the earlier set of 110 photos posted on 20 March 2020. The photos are as stunning and as explicit as the video is and can be seen here:
