Running time: 42:28 minutes

Jeny says in the preamble to this video “ So, in this video I stroll the park and enjoy my skirt. This is the most see through thing I ever wore so open. I remember a woman saying to her boy friend - look at her, I can see her panties. No, look! She is naked! She is naked!”

It sounds like this will be a very interesting video. Jeny going back to what she is famous for – flashing outdoors.

The first shots are from behind Jeny as she walks on a wide footpath alongside a road. There are high rise buildings in the distance. We then see the view from the front.

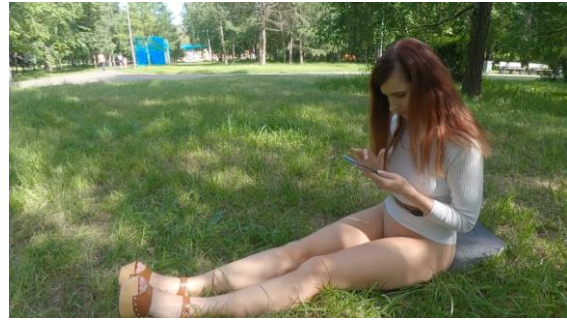

A number of things can be seen. Jeny’s auburn hair hangs loosely on her shoulders. She is wearing a tight white jumper with a polo neck with a brown belt that emphasizes the curves of her bust and her waist. She is wearing a bra (unusual for Jeny). A black handbag is also on a strap around her waist. She also wears a tight buff coloured mini-skirt with a thigh high split on the left side so she shows an large expanse of her left thigh. The skirt is stretchy so it shows off Jeny’s magnificent bubble-butt and is see-through! She wears brown high-heeled sandals on her feet.

We then see Jeny walk to the road to use a pedestrian crossing to get to the other side. Cars come to a halt to allow her to cross. What a wonderful sight they have of Jeny’s fabulous legs and wonderful butt as she crosses before them.

On the other side of the road Jeny passes through some metal gates and into a park with large expanses of grassy areas. She finds a spot to sit down on a mat (which she she must have brought with her). She draws her legs up as she looks at her phone.

Whilst she is still sat down, we see Jeny wiggle from side to side on her butt as she pulls the skirt up. It is made of a thin material which she is able to slip under her top. She is now sitting in the park bottomless!

We then see a shot of Jeny taken from some distance away so we get a perspective of where Jeny is sitting on the grass. We also see a number of pedestrians walk close by on a nearby path. The shot zooms in and it shows another camera on a pole stuck in the ground which is providing the close up shots.

Jeny then stands up with the skirt pulled down and with the light in the background it is quite see-through.

Jeny sits back down again and repeats the trick of pulling the skirt up. Once again she stands up with her back to the path. Some men are seen walking by who take admiring looks at her. Presumably they can see the curves of her butt beneath the material of the skirt and also will notice how see-through it is.

The next scenes show Jeny sat down again, but this time on a gently sloping grassy bank with a footpath behind her.

She has once again pulled the skirt up. This time one leg is slightly raised and from the front view, her pussy is now clearly on show.

And then she blatantly shows her pussy by leaning back and raising and opening both her legs.

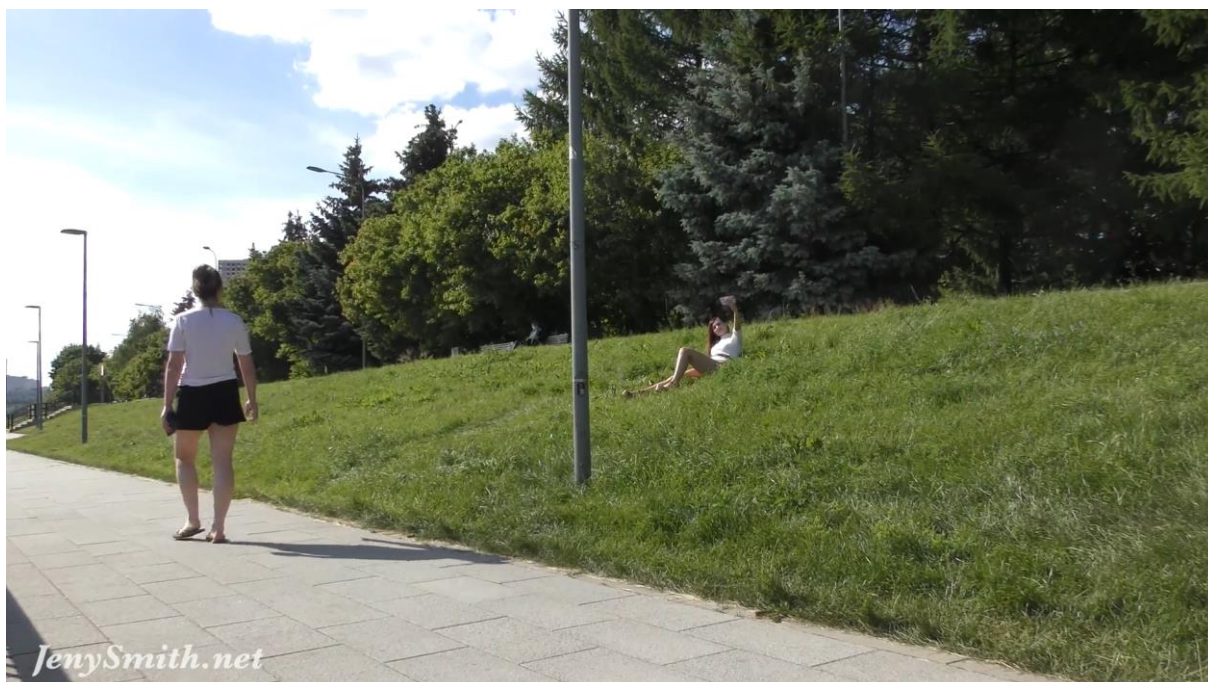

Alex is holding the video camera and he provides shots of pedestrians and a cyclist passing Jeny on the path behind her, just a few metres away. He also takes the chance to zoom in to provide some lovely "between legs" shots.

Jeny gets caught! There is an older man sat behind Jeny to her right on a park bench watching her closely. Of course, Jeny being Jeny, is not perturbed.

In fact she gets her mobile phone out to take some selfie shots to emphasise to her spectator exactly what she is doing.

The camera pans out. It shows there is also a path in front of and slightly below Jeny. We see a female pedestrian walking by glance at Jeny. The spectator in the background is also watching as Jeny continues to take selfies, apparently oblivious to both of them. However, I feel sure Jeny was fully aware of and excited by the presence of both of them!

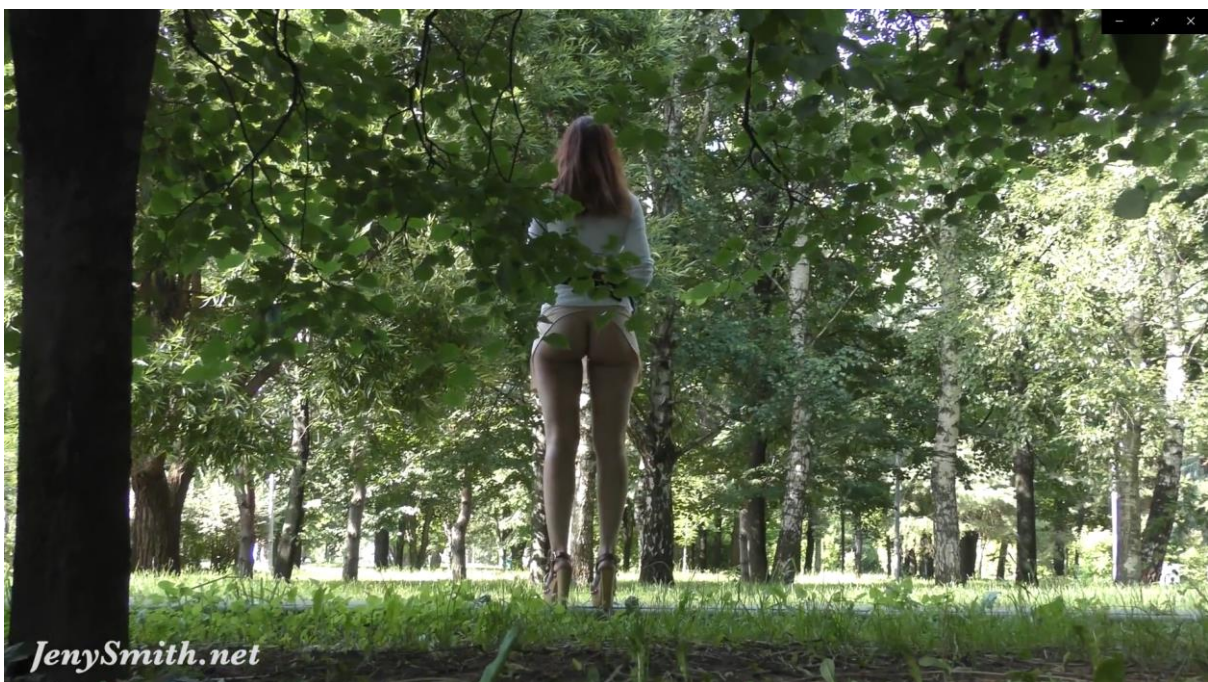

There is then a mixture of the video taken by Alex and the selfie videos taken by Jeny to show how naked the bottom part of her body is...

...and also to show how close the various people were to Jeny when walking by, both behind and in front of her. She also provides a lovely shot of her beautiful face with the breeze gently blowing her hair.

The action switches to another part of the park. Jeny has now adjusted the split on her skirt so it is at the back of her. That means of course her magnificent bubble butt is totally exposed...

...as she stands in the shadow of some trees by the side of a path...

...as various people walk and cycle past.

Jeny continues walking through the park with the slit on her skirt adjusted either to the front, side or rear.

The final shots are of Jeny performing a sexy dance wiggling her body and hips.

The split is at the front of the skirt so her pussy is on show.

She is so pleased how the shoot has gone, being able to flash outdoors with a number of people catching her flashing her butt and pussy.
