

Review for photoshoot “Pantyhose review backstage photos”

Tags: No; Published: February 11th, 2021

Today, Jeny plays the role of a marketer. She asked a guy (the victim) to come to the studio because she is looking for volunteers to get men's opinion and trend on the new collection of tights that are going to be put on the market. She tells him that this will be part of a focus group and that she will try on the tights herself. The parade begins. The guy is impressed, but Jeny puts him at ease. Quickly, the presentation of the tights takes another turn and becomes more like an increasingly naughty game of exhibition, especially as the contacts between them become ambiguous. A word of advice, be sure to watch the video, you'll find out more.
