

Review for photoset “Preview Psychologist in completely dark room”

Tags: none; Published: 9 September 2021

This is a set of 28 photos that were taken at the time Jeny was making videos that would shortly after be published on her site. (See footnotes for further details).

With her introduction to the photos, Jeny said “The session was very exciting for me. I went very naughty because for some reason darkness wakes up many sexual wishes and fantasy. The guy he felt like he was with a woman for the first time. He said he was shaking just like the first time with the woman.”

The photos and the videos were also very exciting for me. Jeny wears a very short, crisp, white shirt dress with a black belt and sexy stockings suspenders and high heels. What a combination.
