

Review for video “Blindfolded”

Tags: [blind](#), [blindfolded](#), [white stockings](#), [suspenders](#); Published: [2 February 2021](#)

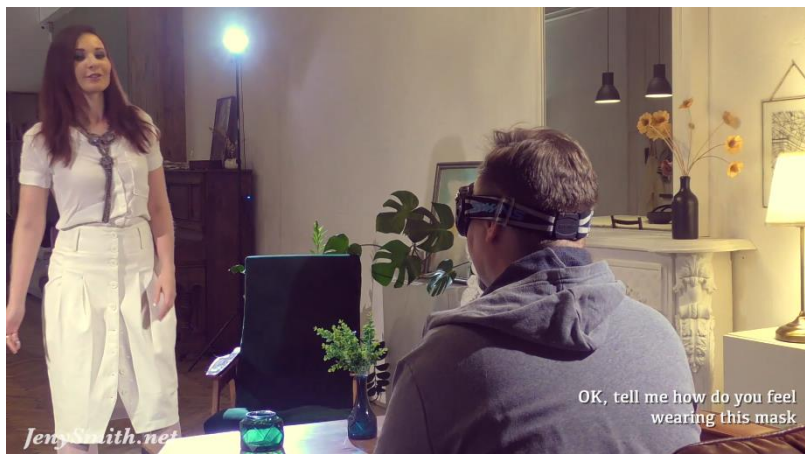

Running time: 35 minutes 49 seconds

The video begins with Jeny explaining that this will be the last psychology style video (for the time being, I hasten to add, it had lost interest for Jeny and so she just needed a break from them. They will and have returned!!).

So on with Jeny's introduction! Her victim will be blindfolded and will have to rely on his other senses to understand what is happening about him, he takes his seat opposite Jeny who explains what he can expect.

Meanwhile Jeny is all in white, a short sleeved blouse with a chunky necklace, white stockings worn under a white leather skirt which buttons up the front and black high heeled shoes and as always Jeny looks stunning. She gets the victim to put his blindfold on and the stage is set!

Jeny begins slowly to allow the victim (henceforth identified as V) to get accustomed to his surroundings while she speaks to him, asking him what direction the sounds come from and all the time Jeny is walking in front of him. V is quick to notice that his hearing is more acute and is compensating for his lack of vision. He can't see that Jeny has opened her skirt up revealing white lace topped stockings with white suspenders...

and she begins to confuse him by allowing him to gently touch the skin above her stocking.

V is now saying that he thinks she is undressing (a good guess considering Jeny has unbuttoned her skirt further) and if he could see he would find Jeny standing before him, stockings and suspenders framing her pussy which has the tiniest of landing strip and very smooth pussy lips.

There then follows a game of cat and mouse with V playing the part of the mouse or another analogy, a rabbit caught in headlights! As for Jeny, she is clearly enjoying every teasing moment, whether it's walking in front of V without her skirt or sitting on his hand with her bare bottom which only confuses V even more.

The excitement builds for both of them, with Jeny continuing to confuse V by the strategy of letting him caress her stocking tops and then placing her leather skirt over the same area! This leads to Jeny getting V to sit on the floor with his legs under the sofa and now she really goes to town, with skirt off she stands and turns around and gently touches his face with her bare cheeks, first one side and then the other.

Eventually Jeny lies back on the sofa with her stocking clad legs spread either side of V and takes his hands and places them on her thighs and allows him to stroke them.

V is now allowed to remove his blindfold and just imagine his first sight of Jeny is of her perfect pussy!

"I'm not your usual psychologist" says Jeny!

They retreat to their original positions and talk briefly about the experiment. V then asks Jeny if she will pose for him to allow him to film her on his phone and naturally she agrees only this time she removes her blouse (and bra) to show her fabulous body in all its glory.

V is confused (again!) this time by whether he should look at the image on his phone or the real thing!!

I'll leave you at this point so you don't need to make the choice of watching Jeny or reading my review!

Footnote: After the test was finished Jeny offered to talk to V about his real life problems. A short video (7:15 minutes) of that talk was published on 11 February 2021. It shows Jeny's caring side. They are seen talking about his problems (but the sound is muted because they are talking about private things). Jeny is still naked (apart from stockings, suspenders, heels and necklace) but it looks like it is a very natural thing. However, Jeny subconsciously strokes her breasts and pussy from time to time as she talks!
