

Review for photoshoot "The Night"

Tags: No tag; Published: April 13<sup>th</sup>, 2022

After numerous situations to manage such as finding an office to turn into a photo studio. After purchasing lighting systems and tripods to make. After the banking procedures and other administrative formalities to take care of, we find Jeny in her new apartment with large bay windows located on the first floor. Imagine that you are her neighbor. You enjoy her slow and sensual stripping, her suggestive poses on the living room sofa to finally enjoy all the details of her body. Of her breasts and her erect nipples, of her luscious buttocks and of her pussy topped with this wonderful landing strip. But the absolute happiness is to rediscover this unique and magnificent smile which allows us to think that the door to better days is opening wide for her and for her family.
