

Review for video “The Old Style Video”

Tags: [old style](#), [skirt](#), [upskirt](#), [factory](#); Published: [27 April 2022](#)

Running time 15:43 minutes

This is one of the early videos that Alex and Jeny shot after they had to move to a new country. They were very unsure about what they could and could not show in their videos outdoors. It is called “Old Style” because it was Jeny outdoors, flashing and teasing in public (how her erotic career really started out). It was also notable because Jeny seemed much happier than she’d been for some while shown by lots of smiles throughout the video and a twinkle in her eyes.

Oh and for me in this video, she looked drop-dead gorgeous. You may say she always does, but here she once again had a certain radiance to her and her body seemed to glow. Possibly it’s all down to her feeling much happier after what had been a difficult time for her family and her.

See what you think.

Jeny is dressed quite simply. A tight black tee shirt, cinched in at the waist by a wide elasticated belt. A very short mini-skirt of a thin floaty material with lots of pastel coloured flowers on a dark background. Her hair is auburn and flowing onto her shoulders. She wears lilac coloured dangly earrings and a gold chain around her neck and gold bangles on her left wrist. On her feet are wedge heeled sandals with thin dark straps which help to showcase her lovely feet.

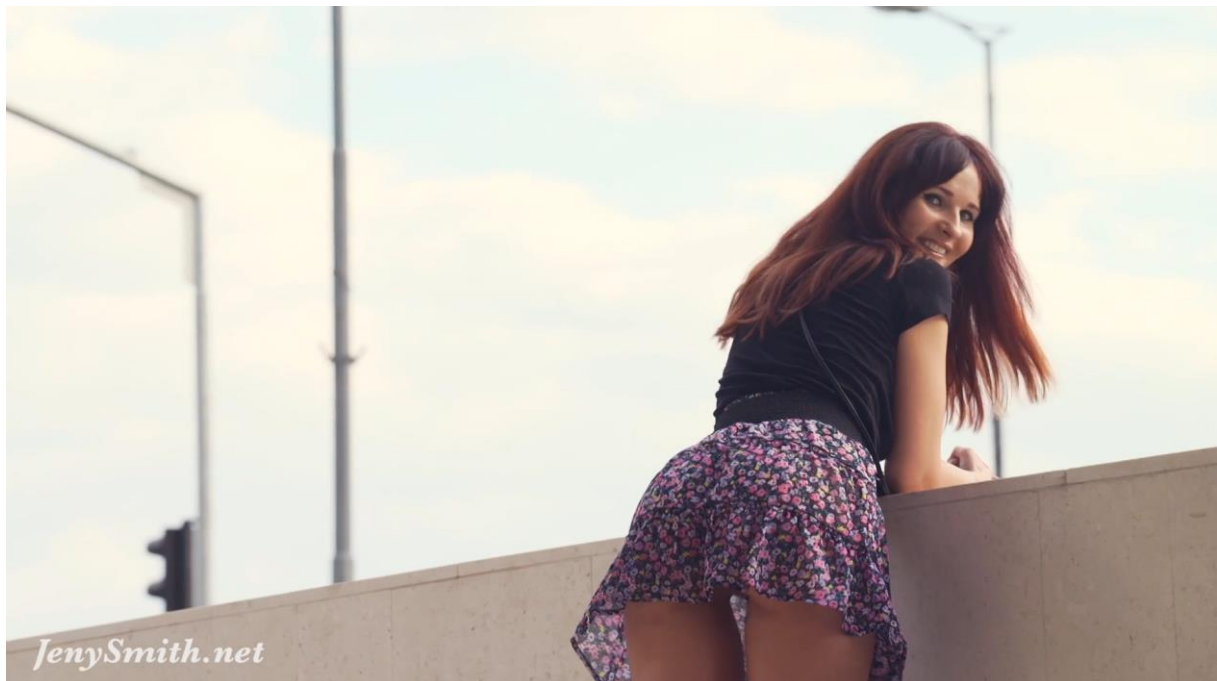

The opening shots are of Jeny sat on a low brick wall. The light outside is bright. So Alex takes the chance to show us her nipples are erect beneath the material of her tee shirt and as (nearly) always we can see she is pantieless, as she slightly opens her legs.

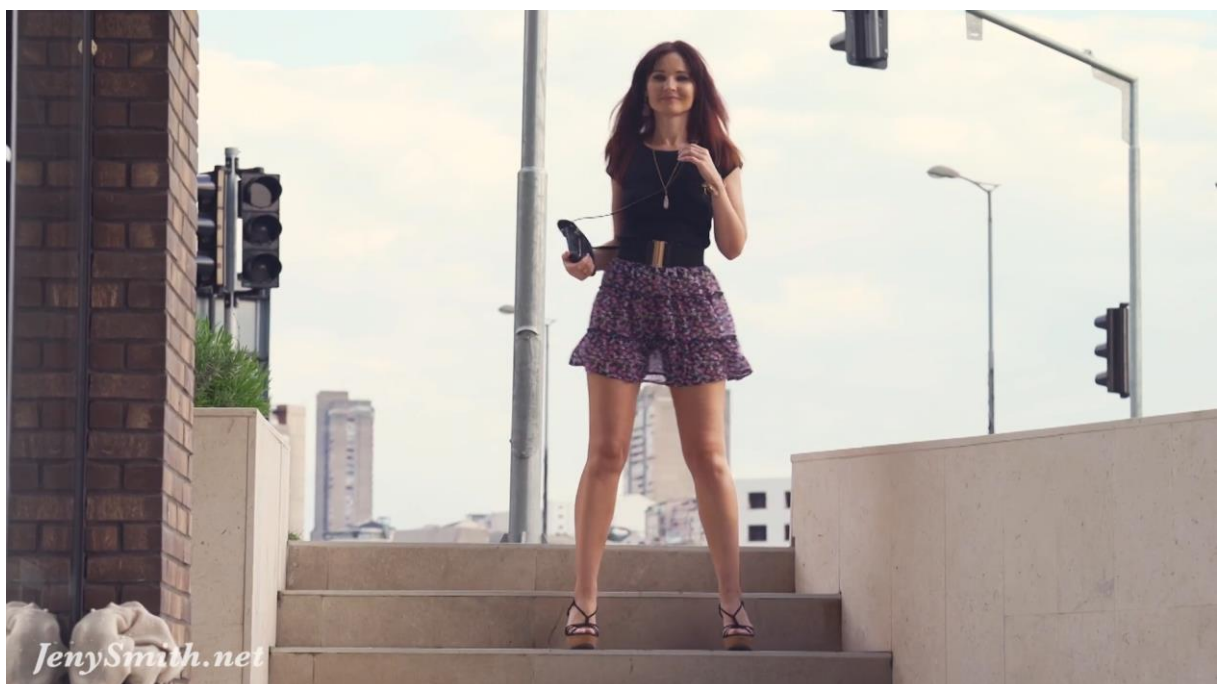

Alex moves to Jeny's left hand side and provides a wonderful shot of Jeny's thighs and their gorgeous curve. She smiles serenely at the camera.

The next shots are of Jeny stood to the side of a wall which separates her from a road, with traffic lights that are slightly above her. Jeny is in a playful mood. So is the wind. Jeny stands with her back to the camera and we see how light the material of her skirt is as the wind gently lifts it showing us the swells of her butt cheeks.

Jeny then parades back and forth in front of the camera outside next to the road quite daringly. She climbs up a few of the steps beside her, so the camera is looking up at her (I often think we get some great views looking up at Jeny). She pauses, legs slightly apart (I also think that is such an erotic sight when Jeny stands like that). We get to see the mini-skirt's material is quite flimsy and see-through as we get a tantalising glimpse of the gap at the top of her legs.

We then get some shots of a sea of purple flowers amongst bright green foliage. We also see Jeny playing with and stroking a pussy (a pussy, not her pussy) to signify the end of the first section. So far Jeny has kept her body mostly hidden (except for those fabulous legs).

The location switches to a road in a wood. Jeny takes great joy in twirling around getting the skirt to rise giving us more glimpses of her butt and pussy. She nearly gets caught by a passing white van-man.

The location changes again. This time Jeny is in a side road with passing traffic posing in front of a telegraph pole.

The sun comes out to shine brightly just as Jeny finds an excuse to bend over to adjust something on her shoe. We get the first proper look at her butt and pussy. She must be feeling more confident now meaning she is likely to get naughtier...

...but not at the same location. After some shots of Jeny's beautifully manicured nails, we see her as a passenger in the rear of a taxi which is driving somewhere. We get to see her perky nipples beneath her tee-shirt and the first close-ups of her pussy's wispy landing strip.

Jeny arrives. We see her standing in the gravel driveway of an abandoned building. Once again she stands there, feet apart – so sexy. The sun is to the side and slightly behind her. It highlights her auburn hair. It also picks up the fine, down like hair on her forearms. With a smile she lifts the front of her skirt and tucks it into her belt exposing her pussy.

She turns around and bends over showing off her gorgeous butt crack and her pussy. Looking carefully around and seeing no-one, she then has a few rubs of her pussy before pulling her tee-shirt up to expose her breasts with perky nipples. She is really enjoying herself now.

She twirls around and around and plays some more with her pussy. She then squats down and rests her head on her hands with a contented smile on her face. What a fantastic look!

Whilst Jeny squats down we are then treated to some really close up shots, which show us her pretty toes and the even prettier lips of her pussy. After a short while of Jeny fondling her breasts and her pussy we see her walking up some metal stairs leading into the abandoned building.

We then follow Jeny into the abandoned building. It is in a very bad state with rubbish and rubble strewn around. She removes her skirt so we get to see her lovely legs and pussy.

Jeny hears noises outside so she moves to an open window in the corner to cautiously peer out. The subtitles tell us that there, Jeny was slightly scared, as workmen were outside who came close to the building. Members of Jeny's site will know that those sort of near-misses often turn Jeny on. That seems to have happened here because Jeny removes the belt from around her waist and then takes time to fondle her breasts and her pussy.

Further sub-title tells us that Jeny and Alex had found the abandoned building scary as it seemed to be the home for drug-addicts. Also, the workmen outside were working by the entrance that Alex and Jeny used to get into the yard. When they tried to leave using that same gate, they found it was locked so they had to climb over a wall at the side to get out.

Jeny thought her escape was worthy of a separate video to show what she had to do. So she returned later, alone with her selfie camera wearing the same outfit and a short video of what happened can be seen here:

<https://jenysmith.net/scene/8704498/the-fence>

It is worth looking at to see the risks Jeny sometimes takes. Things didn't go according to plan. Jeny had first to climb in (and nearly fell in head first whilst doing so) to be able to show us her climbing out. Also the security guard make an appearance.

There were some lovely photos taken during this video shoot. Jeny published 13 "safe for work" photos on the 26 April 2022 which can be found here:

<https://jenysmith.net/gallery/8695346/a-few-safe-for-work-photos-sfw>

She also added a further 27 photos on the 4 May 2022 (which are definitely not safe for work) which can be found here:

I'll finish my review with a simply stunningly beautiful shot of the gorgeous Jeny.
