

Review for video “Delivery 2”

This video starts with a head and shoulders shot of Jeny (and what a beautiful shot it is). Her hair is a rich brown glossy colour worn up in a loose bun, with braided hair extensions falling either side of her breasts.

The subtitles tell us she has been requested by many members to repeat an idea from an earlier video.* She didn't think the previous one was a success but was now willing to give it another go. Knowing Jeny, she's sure to have thought up some improvements!

Jeny explains she has a special, look for the delivery courier. She also says she is being brave. What does she mean? The camera pans down: she seems to be wearing a knitted garment which is very short, with a wide black belt and hold up stockings. It shows some bare thigh above the stocking tops and the first glimpse of her pussy. But, she then turns around – there is her fabulous butt!

What she seems to be wearing is a cardigan which she's deliberately put on the wrong way around! Naughty girl (but what a fabulous look)! Jeny wiggles her body for the camera just to emphasise how gorgeous her outfit looks

We next see Jeny sat down on her phone ordering food to be delivered to her. She is in her studio.

Due to rush hour traffic, the delivery will take 40 minutes. But she says in the meantime “we can have fun”. That sounds interesting. She also says “ I want to show you my cherry on a pie”. That now sounds extremely interesting. She sits up on the chair turning away to flash her butt at the camera ...

...and there it is, a purple, jewelled butt plug. (Yes I know you cannot see it in this picture – so go check out the video). For the next minute or so, the camera concentrates on Jeny’s butt as she spreads her cheeks, twerks and sways to emphasise that the plug is firmly in her butt!

Jeny next sits down on the chair facing the camera and spreads her legs.

She spends the next few minutes playing with her pussy. She uses both her hands to fully open her inner lips and her open butterfly glistens with wetness beautifully caught by Alex's camera work in closeup. All the while she gazes into your eyes (OK, probably more likely into the camera's lens).

But Jeny has even more erotic tricks to use on her viewers. She brings out a pink rubber dildo that has a suction cup for a base. She sticks it to the side of a cabinet then gets down onto her hands and knees to deepthroat it. She says "I think it's wet enough". For what?

The camera then switches views as it looks down into Jeny's eyes as she continues sucking on the dildo.

(I defy you to watch that scene and not think that it's you in front of Jeny at that particular glorious moment!)

Jeny stands in front of the cabinet and then backs into it and with some fiddling around she inserts the dildo in her pussy! She also still has the plug in her butt!

Jeny is stood just inside the doorway to her studio where the delivery man will enter. There are secret cameras installed to film what goes on. Some are on the floor looking upwards. Subtitles tell us the delivery man is two minutes away. Jeny with dildo in her pussy and plug in her butt just has to

masturbate while she is waiting. She moves her pelvis backward and forward grinding on the dildo and her hand rubs her pussy.

This is the view that the delivery man gets when he arrives.

Unfortunately the first one to arrive doesn't stay long. Jeny has paid for the order by card so he doesn't need to wait for change. Also, he called Jeny the next day asking not to be shown in the video as he was worried it might affect his job.

So Jeny reorders but this time doesn't pay by card. Instead she intends to pay using cash. When the next man arrives she explains to him in English with that sexy accent of hers, that her boss has ordered her to dress as she has and to behave in that way. She pays for the order by having the notes in her butt crack which the delivery man collects.

After the notes have been retrieved by the man Jeny turns away from him to take off her belt and to remove the cardigan and she then turns to face him, naked except for her stockings and heels.

This man is in no hurry to leave. I suppose you cannot really blame him when presented with the beautiful naked Jeny in front of him.

Jeny tries all sorts of moves to entertain him. She inserts the dildo in her pussy and sucks on it and pretends to masturbate. She bends over and squats. She gets him to take photos of her with her phone and shows him the butt plug and allows him to use his own phone to take some more photos.

All the while the man mostly stands there, hardly moving and saying very little. He looks slightly intimidating, partly because his clothes as a delivery driver, (presumably on some sort of motor bike or scooter) look almost paramilitary. Towards the end Jeny is smiling but nervously because of a lack of any real response from the man. After 10 minutes or so, he leaves much to Jeny's relief.

The end subtitles tell us that there was a plan that Jeny had forgotten to follow. Alex and her had prepared in advance a series of instructions she was supposed to pick out at random, telling her what to do. She simply went with the flow of things but anyway ended up producing a wonderful video with some extremely erotic scenes.

In her replies to the comments afterwards Jeny also confirmed that as always, Alex was in an adjoining room monitoring things to ensure she was safe.
