Currently this is the most popular video on the site with a massive 426 thumbs up! Clearly the vast majority of members either didn't see the explicit warning or it's like a red button on a desktop that says "don't ever push this button!".

Well you were warned! The scenario is one we are familiar with and we start off with Jeny warming up for her stretching class. She is wearing sneakers and a very tight light blue leotard which is cut high at the crotch and does little to hide anything.

This is a very complicated video in that it doesn't conform to the normal layout of a Jeny Smith video, but jumps back and forth in its time line and is deliberately confusing for reasons we will discuss later.

One thing that typifies Jeny's videos is that she gives us a brief introduction, so that we are all part of the plot and in this case we are told that she has found a teacher to give her that stretching class that she has dreamt about.

We cut to a shot of Jeny as she teases us whilst running her hands up and down the sides of the thin material that covers her venus mons (sometimes known as mons pubis).

Then they are starting to warm up in the studio, you'll have to deal with the editing of this video as will become apparent later on.

Back to the warm up. We get to appreciate the leotard with its high cut which shows off Jeny's beautiful butt cheeks whilst the teacher puts her through her paces with the added bonus of Jeny bending over.

Then back to Jeny's introduction in which she tells us that the instructor has been told that they will be making a video for YouTube.

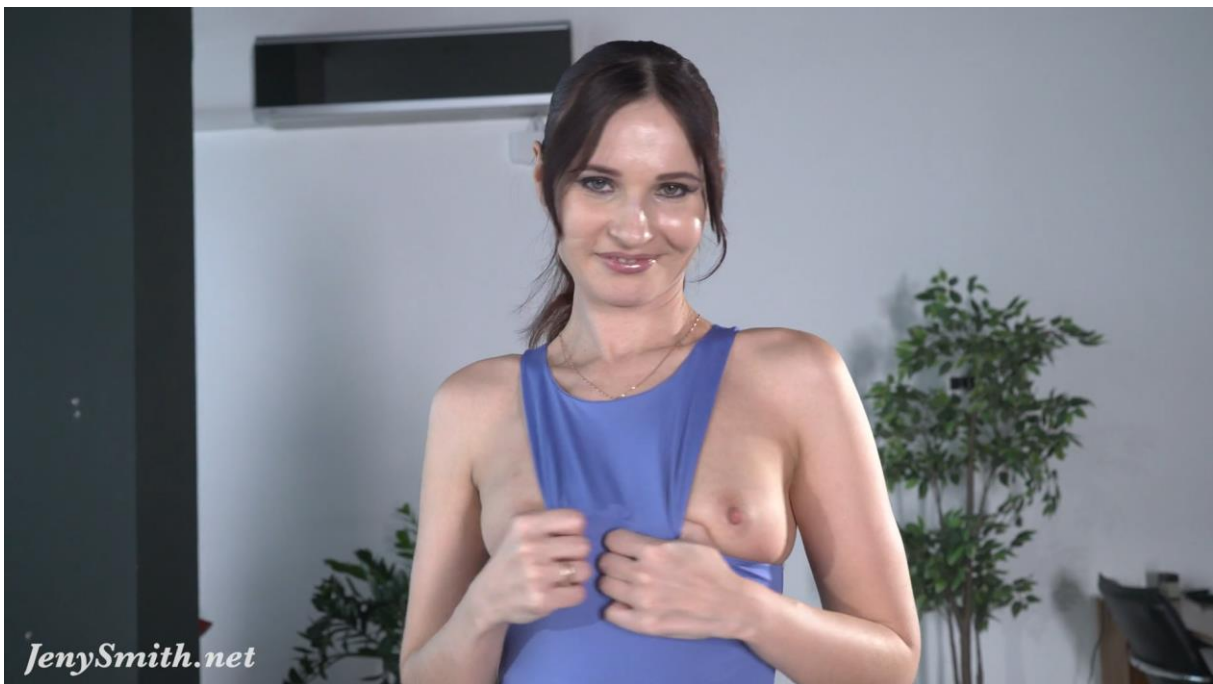

Cut to Jeny standing in front of a seated teacher to whom she outlines what they plan to achieve in their upcoming session. She then explains that she needs help spreading lotion on her body with particular attention paid to her upper thigh area.

But before that we cut back to the studio where the emphasis on kneeling and stretching, which affords us several long looks at Jeny's superb ass.

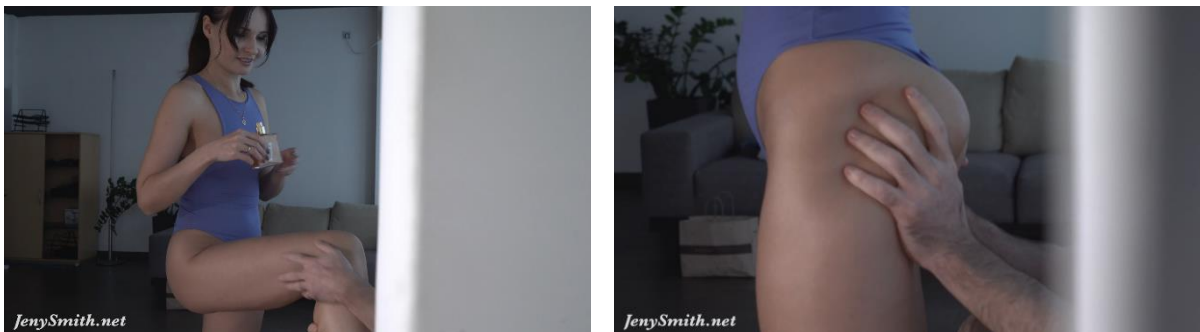

Briefly, we cut to Jeny exposing her fabulous breasts to us.

Then back to an earlier time when the tutor and his pupil are rolling out their mats and starting their workout. The teacher takes the opportunity to touch Jeny under the pretext of ensuring that she is positioning herself properly!

Then back to the start of the exercise and Jeny using the oil on her upper thigh area and getting a helping hand which is soon on her buttocks and he reveals that he is trained to give massages upon which Jeny is pleasantly surprised.

Then back to the studio where the tutor takes a more 'hands on' approach to his work and his pupil, putting Jeny in a series of positions that he needs to put his hand on her thigh.

During one of his changes Jeny (without his knowledge) manages to release the poppers at her crotch and at the next change in position when he has left her side, the strip of material that was covering her pussy slips down and her perfect pussy is revealed in all its glory.

Still the tutor hasn't noticed until whilst helping Jeny into another position, that same strip of material slips free and he can't miss seeing her nakedness, he utters the memorable word 'formadabl' as Jeny feigns bemusement at what has just happened.

Then another leap back in the storyline as Jeny's leotard has resumed it's shape until Jeny pulls it tight between her pussy lips. Then just as suddenly they stand facing one another and Jeny pulls off his T-shirt, then his shorts and by now kneeling, she pulls his pants down...

...releasing his semi hard penis, which I thought momentarily she was going to hold it! But no, Jeny just giggles and turns away.

Then after 2 more changes in the time line the two of them are now both naked!

I should explain why there's so many cuts and editing. It becomes apparent that, although a willing participant in the next scenes, Jeny, with the benefit of hindsight, realises that things progress in a direction that she was uncomfortable with.

So, without affecting the video, Alex re-edited the film to not have the element of building, teasing and suspense which Jeny's videos are famed for.

So I shall leave you to watch the rest of the video without further commentary from me.
