

Collage-review for photoset “After”

Tags: Dr Alex; Published: March 19th, 2023

This photoset was shot after the “Dr Alex – Her New Fetish” video (V559). Jeny is wearing the clothes of this video, scarf, top, suspenders, skirt, stockings, and boots.

Jeny is posing in their office. They bought a new white background for the shooting, and Alex used constant light and no flash. In the collage you see some of Alex’s close-up photos, some are “spying” through the fabric of Jeny’s top so that you can see one of her beautiful nipples shining through. And other close-ups focus on the slit in the skirt – and some are spying and detecting that there are no panties beneath.

On some of the photos Jeny is bending over to hide her pussy with the corner of her skirt – but it was a fruitless attempt to hide 😊😊, because Alex was not shooting his photos from in front, but from

the back, Jeny's gorgeous butt side. One of the following feature photos show Jeny starting to bend over, and you see the corner of her skirt hiding her pussy ... and the second feature photo is the signature photo of this set, a breathtaking butt-and-legs shot ...

Jeny is sitting and squatting with closed and later also spread legs and finally showing her butterfly. And while she is pleasuring herself with her right hand, you see her bracelet – that she designed and handcrafted by herself! One of the many talents of Jeny! Chapeau!

The complete white background and beige top and skirt makes not only Jeny's scarf "shine" but mainly her skin, her beautiful face and her dark hair. I love this "pure Jeny" photoset!
