

Review for photoshoot “My Orange Dress”

Tags: Orange,Hat; Published: August 28th, 2023

Jeny has just bought a new summer outfit. This is a long orange skirt. But Alex suggested she make it into a dress, pull it up to hide her breasts and add a belt. So going up, the cut of the dress is much higher. Jeny decides to accessorize it with chains. Wedge heels and a strawhat complete the outfit. And off we go for a little stroll on the road reserved for bicycles and pedestrians. Jeny sometimes takes suggestive poses and the few passers-by who pass her discreetly take advantage of them. When she sits on the low wall, she becomes naughty and her pussy is offered to the sun and to the tourists. It's certain, this little game excited her. The day ends in the middle of the country road. Jeny shows her buttocks, walks on all fours and becomes very very naughty for our greatest pleasure but for hers too.
