Vicky is a young photographer that Jeny hired while Alex was shooting the video "around the plot of a role-playing game" that they imagined. Everything was improvised and Vicky did a simply incredible job said Jeny. She should work for the site again soon. We can say that the first part concerns Jeny's sewing work, which she presents to a young man, Maxim. (Young man that subscribers are starting to know well now) A game of seduction and flirting takes place in front of Vicky's lens. The second part is a little more explicit. Jeny is almost naked. She wears a cap, stockings and pumps and Maxim will play with her or Jeny will play with him. Complicity and respect are the rules that have been respected.
