

Mini Review for video “Birds”

It is nice, it's hot. After a nice drive through the green countryside, Alex stops his convertible near a rest area on the edge of the forest. The decor is magnificent and the chirping of birds makes Jeny playful and naughty. After removing her skirt, all she has left is her thin blouse. Her nipples are already pointing towards the sky, a sign of her growing excitement. She also wears black stockings, a delicious garter belt and heeled ankle boots. A trench coat shields her from the road behind her and the guy nearby. He doesn't seem to pay any attention to her because he's focused on his smartphone. Too bad for him. After showing us her pretty buttocks near the wooden picnic table, she takes a little ride on the swing and shamelessly reveals her generally hidden treasures to us.

After having enjoyed this for a long time for our greatest pleasure, she leaves for the forest and takes a wide forest path. At the top of the coast and under the eye of a magnificent sunset, she exposes all the intimate parts of her magnificent body. A real treat for the eyes.
