My imagination

Jeny put on a dark purple dress, a light purple jacket, her tights with purple highlights and her white pumps. And off she goes, terribly excited about her outfit of the day and what she's planning to do outside. I wasn't with her that day and yet...

Jeny walks through the undergrowth on what looks like a bike path. She does it like a model would do for a haute couture show. Click-clack would make my camera. A guy comes up behind: "Very nice ass ma'am, thank you." Another who passes her can't look at anything but her thighs. And this guy who came up to talk to him. "Hello, what are you doing alone, you're gorgeous, we can go for a walk together if that's okay with you." Jeny showed him her camera filming and he left disappointed. And the guy on the bike in the park right behind. He almost fell. Other people who were walking behind you enjoyed the show. You didn't see anything, but you certainly felt their presence. And then you played on the bench, thigh open, landing strip clearly visible under your seamless tights. You then took off your jacket, you even pulled one breast out of your dress. People have walked past you. But did they dare to look at you frankly? And if I'd been there...

Finally, between two cars, you exposed your beautiful body. There was a lot of traffic on the road. A two-lane road, said Andre the Scientist and Jeny confirmed. You didn't hesitate to reveal all your secrets,... But I wasn't there.

But the video is there, so go ahead guys.
