Jeny's performance in this video brought back a professional memory for me. So it was easy to let my imagination run wild.

I live just opposite the entrance to this courtyard and when I open my living room window I see this beautiful young woman. I don't know what she's doing there.

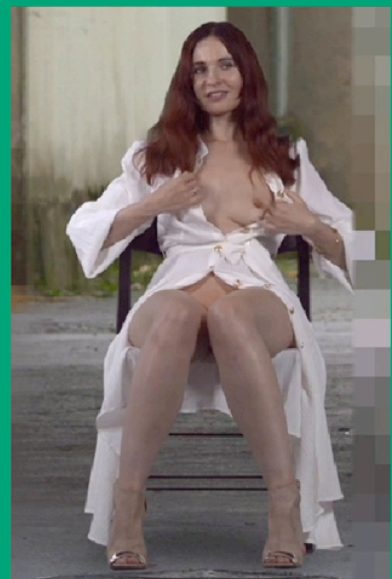

Maybe she's waiting for something or someone, I don't know.

From where I'm standing it looks like she's leaning on a cane or something, I don't know.

She's wearing a long white dress buttoned at the front and fastened with a thin white belt, but there are lots of buttons open at the bottom. Does she know? I can't tell.

Between her and me there is a busy, cobbled street that separates us and when a vehicle passes, this young woman disappears from my sight. But she disappears for just a moment, only to reappear even prettier.

I don't know if she does it on purpose or not, but sometimes, with her left hand, she pulls the flap of her dress outwards and the view of her legs becomes exceptional.

I've just realised that it wasn't a cane she was leaning on, but a folding chair.

I see her unfold her chair and sit down.

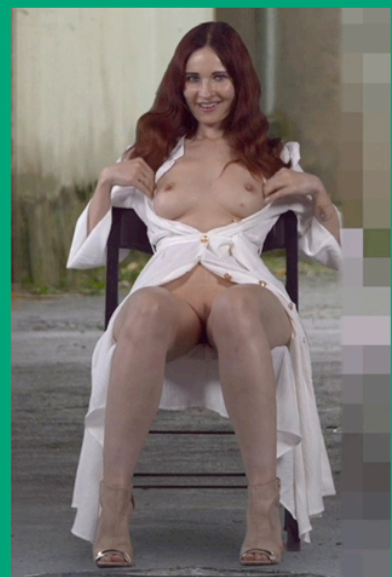

She crosses her long legs and I can see the top of her thigh very clearly.

I wonder if she's really waiting for someone or if she's just there to pass the time. What I do know is how I'm going to pass the time.

A car arrives and she uncrosses her legs. Oh my God, she's not wearing any panties and I can see her pussy very clearly. She stays like that as a pedestrian passes in front of her.

Nobody seems to know what's going on, except me. Now she's unbuttoning the top of her dress and exposes her magnificent breasts, as she's obviously not wearing a bra.

She's now half naked in this little courtyard slightly set back from the street and I'm in the front row.

This girl is crazy, but insanely beautiful. A car has just gone by and she's spreading her legs even wider. Her pussy is completely shaved, well almost. There are a few little hairs on top like a landing strip. A guy has just driven by with his dog. She's just undone the last button on her dress and she's laughing. The guy didn't see anything but the dog turned his head. I wonder what her reaction would have been if the dog had come closer. But already a van is coming, almost in slow motion, then it stops. The road seemed to be blocked. Has the driver seen something, because now he's reversing. But in front of him the cars move forward so he leaves too. This time I can see three young men coming up on my right. Curiously, I'm the one who's stressed. I'm crossing my fingers that they pass without seeing her, but I get the impression that this girl is hoping for the opposite.

The three young men passed by. I was right. She did everything she could to be seen because she lifted her leg and put her foot on the edge of her chair. I even thought that the guy closest to her had turned his head in her direction. Sometimes the cars go by quite fast, sometimes in slow motion. One thing I'm sure of is that this girl is having a good time. I'm sure she's put her chair there just to show herself off, just to be seen. Wow! This time she lifts both legs and flashes a huge smile. She's so beautiful like that, beautiful and sexy, sexy and desirable. And more pedestrians arrive, and this time there's one who's seen it all. He didn't stop, but he didn't take his eyes off her. That's when I knew she'd finally got what she'd come for. But what's going on? She's now hiding with her hand in front of her face. She's seen me. I don't know where I got the courage not to hide and give her a thumbs up, but I did.
